THE local agent for the Telegraph Companies. courtequaly informs us that the Spanish Authorities have agreed to the proposals of the Directors of the Eastern Extension Telegraph Company, to adopt a Press rate between Hongkong and Manile, to come into force from to-day. The rate has been fixed at twenty-five cents (25c.) per word, subject to the Company's press regulations.

BEFORE Mr H. E. Wodehouse at the Magistracy this morning, a coolin, and three children were charged with entering a house at 72 Market Street, and steal. ing a quantity of locks, hinges, &c. The houses are at present closed up, and are in the custody of the Banitary Board. The coolie had two baskets, presumably for carrying off the spoil. Mr Wodehouse sentenced the man to three months' imprisonment with hard labour. The children will be imprisoned for seven days and will receive eight strokes each with a ratian.

THE meeting of members called by the

Committee of the Chamber of Commerce,

for the purpose of electing a representative of the Chamber to the Legislative Council, &c., as in place of bad smells it leaves a in place of Mr. Whitehead, will be held to-morrow. Perhaps the short tenure of office has something to do with the lack of competition which has been apparent among members. The disturbance in bullness caused by the appearance of Asistic typhus in our midst may furnish another reason for the absence of candidates. However this may be, we are informed that a general feeling of 'drift' has characterised all the action or inaction taken in this. matter. To fill an acting appointment for, only six months is perhaps considered scarcely worth the trouble of posing as a candidate, with the prospect of being defeated. Hence the general acquiescence of all parties, so far as we can learn, in the acceptance of Mr A. MacConschie as the locum tenens of Mr Whitehead. The names of Mr Joseph (P. & O. Co.). Mr J. J. Francis, and Mr Dairymple, have been mentioned; and had the election been for a term. Mr Joseph or Mr Frencis might have reised a little pother over the ballot. Meantime, however, Mr MacConschie is said to hold the field. As a business man, of undoubted integrity and honesty of purpose, Mr MacConachie may be re-Half an ounce (about one table-spoonful) garded as an eminently safe man. His knowledge of Hongkong goes back a quarter of a century and his firm is one of the oldest in Hongkong. He is a man who not only has had his eyes open, and his. mind free, but he can also assert bis views and preserve the contents for Medical inspection. It also purifies drains, water- with a Scotch directness which will perhaps prove to be not inapplicable under present circumstances. There is every likelihood we believe, that Mr MacConachie will sucgood Mr Whitehead.

Call it much, and perhaps more, but they are no second class, and even its own supporters in the Convention Monetaire. . Notable will regard its doings with comparative in- among these countries are the Netherlands. Even a knowledge of the currency of a

country whose coinage is accepted is not a sufficient safeguard. For instance, the two franc piece of Switzerland is only Mr and Mrs Chapmanhies Perken

In order to protect the public from should obtain any advantage which might of 30 per cent., and which, indeed, need Foothow .. -After this comes Italy, 1839, Car Albertus, D. G., Rex. Sard. Cyp. et Hier., and the various coins since; followed by Switzerland and Greece. Altogether there are 49 A balance of opinion is clamed in favour | coins illustrated as being of good carrency, and 34 which should be rejected.

Fortunately our own Radical party, fond as it is of change, will find it a difficult matter, without altering the coinege altogether, to follow in the footsteps of France in this matter. We very properly kicked out the French son when it threatened to oust the British 'brown,' and it is to be honed it will be a long time before any of our Progressive school will venture on an attempt to imitate the foreign failure of a \* Convention Monetaire. -- Globs.

A Dice-throwing device has been invented in which electricity is used to manipulate the dice : but ingenuity is not always encouraged, for we read that Mr R. D. Bornett, of Birmingham, Ala., has been arrested for using it. The current could be turned on from behind the counter or bar by dressure of the foot, and the dice were so constructed as to fall a fixed way when the current was on, but while the customer was playing it was possible to w dew (wet). turn the current off. This was hard on the customer, but you must not expect too much from some inventions.

#### THE CHINA REVIEW.

PUBLISHED BI-MONTHLY.

THIS Review, which was intended to meet . the wants of many students of Chinese caused by the discontinuance of 'Notes and Queries on China and Japan,' has reached its Twenty-first Volume. The Review discusses those topics which are uppermost in the minds of students of the 'Far East' and about which every intelligent person connected with China or Japan is desirous of acquiring trustworthy information. It in-cludes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new departure has been taken, and the Review now gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction, the Magazine would be made more generally

unoful. The Review department receives special attention, and endeavours are made to present a careful and concise record of Idterature on China etc., and to give recent works on such topics. Authors and Publishers are requested to forward works to 'Editor, China Review, care of China

Original contributions in Chinese, Latin, or any of the Modern Languages are received. The papers are contributed by the members of the various Consular, the Imperial Customs, and Hongkong Services, and also by the Missionary bodies amongst whom a high degree of Chinese scholarship is assiduously cultivated. Amongst the regular contributors are Drs. Chalmers, Eitel, Bretschneider, and Hirth, Professor Legge, and Messre Balfour, Watters, Stent, Phillips, MacIntyre, Groot, Jamieson, Faber, Kopsch, Pafker, Playfair, Giles, Piton, and Taylor,—all well-known names, indicative of sound scholarship and thorough mastery of their subject.
